

Mercy Hospital Receives "Mobile Infant Warmer"

Sister Mary Hilda, R.S.M., Administrator for Mercy Hospital, is shown receiving a "Mobile Infant Warmer" from Mr. William B. Commons, Chapter Chairman for the Crawford County March of Dimes. Also pictured is Mrs. Sally Hartig who is the Chairman for the Mothers March of Dimes Drive for Crawford County.

The Infant Warmer, which cost \$863.00, represents some of the money contributed by the line residents of Crawford County in the last March of Dimes Drive.

This Warmer is designed to provide thermal (heat) support of an infant in those clinical situations requiring optimum access to the infant. The unit is stationed in the Delivery Room, and immediately after delivery, the infant is placed in a bassinet which is attached to the Warmer. The Infant Warmer then proceeds to produce the heating effect that it is designed for, and is that is to protect the infant from becoming chilled. The infant's body temperature will remain constant, thus eliminating any drop in temperature.

We at Mercy Hospital again wish to thank the March of Dimes, and the mothers who participated in the March in collecting the much needed financial donations.

This Mobile Infant Warmer will definitely contribute to the excellent care of the new born infants at Mercy Hospital.

Peter Ciucci Returns To Kirtland Community College

Garret W. Stewart, Dean of Instruction, has announced that Peter J. Ciucci will be returning to Kirtland as an Instructor of History for the 1975-76 academic year. Mr. Ciucci spent the past year on sabbatical leave at the University of Michigan as a recipient of a fellowship for community college teachers from the National Endowment for the Humanities.

Mr. Ciucci has been a member of Kirtland's faculty since the College opened in 1968. In addition to teaching, he has served as President of the Faculty Senate, co-ordinator of the College's accreditation activities and as a member of various College committees. He is currently working in the Office of Student and Community Services at Kirtland and will resume formal teaching duties in the fall.

Primarily as a result of Mr. Ciucci's concentrated studies in the University of Michigan's Center of Asian Studies, the College has added two new courses to its Liberal Arts curriculum. The courses are a two-semester offering in East Asian culture and civilization, with the first of the two courses to be offered during the fall semester, 1975. Both courses provide broad, non-technical introductions for students interested in an increasingly important, though often misunderstood, area of the world. The methods and materials used in the classes are designed to expose students to many and varied aspects of the development of East Asian cultures and civilization, with greatest emphasis on China and Japan.

Interested persons should contact the Admissions Office for further information.

Michigan's Only Poisonous Snake

The Massasauga or Pygmy Rattlesnake is Michigan's only poisonous snake. It is easily distinguished by the terminal rattle on its tail. Other distinctive features are the thick body, the short slender tail, the triangular head much swollen at the back, small eyes, and the deep pit between the eyes and nose of the snake.

In color the snake is gray - often nearly black, with many dark brown blotches merging into cross bands on the tail. The belly is black. It prefers swamps, bogs, and marshy areas but during midsummer it frequently resorts to drier situations.

Unit for unit its toxin is as virulent as that of other species. But because of its smaller

quantity of venom, sluggish habits, it is not to be feared but certainly should be treated with caution and respect. Quite possibly its bite might prove fatal in the case of a small child or an adult suffering from heart disorders, or anyone who may be allergic to the venom. This is not to say that the bite is harmless as it can cause much suffering. Further it should be warned that the snakes often travel in pairs. The best protection against the snake is simply to wear a pair of boots while in the woods and when berry picking to watch where you are putting your hands. The snakes can be found in most parts of Crawford County.

Alcohol Center Offers Variety Of Services to Crawford County

Ray Hasenauer, counselor at the Alcohol Information and Counseling Center on M-72 west of Grayling, reports six services now available to individuals and groups in Crawford County.

The Grayling Center is part of the Comprehensive Substance Abuse Program administered by the District One and Tri-County Health Departments. Other components of the comprehensive program are Alcohol Information and Counseling Centers in Cadillac and Traverse City, the Westford-Missaukee Crisis Center in Cadillac, Third Level Crisis Center in Traverse City, and the Northwestern Michigan Halfway House in Traverse City.

The Grayling Center offers the following six services:

1. INFORMATION. Organizations such as schools, civic clubs, and church groups can request presentations, workshops and other programs dealing with the drug alcohol. Individuals can request pamphlets or private consultations to obtain information about alcohol problems. Persons who feel they may have a problem with alcohol, or may have a friend, employee, client or family member with a drinking problem are especially urged to inquire.

2. FAMILY ASSISTANCE. A special program is offered for family members of persons with drinking problems, and can be used whether or not the problem drinker recognizes the problem.

3. COUNSELING. Appointments for individual counseling for a personal or family drinking problem can be made by telephoning 348-8331, writing the Alcohol Information and Counseling Center, Route 1, Box 1020, or by dropping in. The Center is located less than a mile west of downtown Grayling on M-72.

4. GROUP THERAPY. When sufficient numbers of persons are seeking help for similar problems, groups will be formed so that answers found by members of the group can be shared with others in the group.

5. REFERRAL TO OTHER SERVICES. The Alcohol Center provides the additional service of arranging hospitalization or residential care for clients when called for. Arrangements can also be made for clients to receive health, mental health, vocational, social or other needed services.

6. COURT PROGRAM. Under the direction of information specialist John Darrow, the Alcohol Center conducts a class for persons convicted of alcohol-related offenses or identified by Secretary of State offices as having difficulty with drinking and driving. The classes are conducted at Grayling High School and are open to the public. This fall's class will begin on September 2nd and will run from 7 to 9 p.m. the next five consecutive Tuesdays. The class will be held in room A-39 of the Grayling High School.

Anyone who wishes further information or to arrange for services is invited to drop in, telephone (348-8331) or write the Center.

Fire Dept. Kept Busy

The Grayling Fire Department was kept busy this past week with five calls being answered, according to Fire Chief Joseph White.

On Wednesday, August 20, fire completely destroyed the home of Rose Moorehead on Staley Lake Road. Cause of the fire and the amount of loss is undetermined as yet, White said. The alarm was turned in at 11:28 p.m.

On Thursday, August 21, three fire calls were received. At 8:15 a.m., the department responded to a call at the Clifford Malloys on AuSable Trail. A garage was damaged. At 8:20 a.m. a car fire was reported. Details on the owner are unavailable at present. At 11:18 a.m., a home owned by LeRoy Stanton at 705 Maple suffered smoke damage. This was caused by a faulty furnace, according to White.

On Sunday, August 24, a boat owned by William Chrisman of Flushing was destroyed by fire at Harbor Beach by Lake Margrethe. Chief White said that Mr. Chrisman sustained a burned ankle in the mishap and was treated at Mercy Hospital and released. The boat was valued at \$1700.00.

Lovells Club To Meet

The Lovells Hook and Trigger Club regular monthly meeting will be held on Tuesday, September 2nd, at 7:30 p.m. in the Town Hall. Bear Archery movies on "Safe Bow and Arrow Hunting", "Proper Equipment" and "Hunting Method" will be shown.

Christopher Bear Kroll Memorial

An Athletic Field, currently being constructed at Camp Shawono, will be named after the late Christopher Kroll of Grayling. Facilities will include a soft-ball diamond and an area for touch football. The field is being built with funds contributed in Christopher's memory.

Camp Shawono ranks at the top of training centers around the State for boys between the ages of 15 and 17 who have been sent here by the Courts. The camp is operated on an honor system within the frame-work of the school program. It is managed through the combined efforts of the Office of Child and Youth Services of the Department of Social Services, and the Michigan Department of Natural Resources. Most of the fifty boys normally in Camp are High School drop-outs, but nearly all of them are involved here in either a scholastic program or in trades-training classes, in addition to their daily crew work with The Department of Natural Resources. Their average stay in Grayling is six months, and seventy-five percent of the boys have no further contacts with the Courts.

Last fall, old Camp LaVictoire, for years situated near Hartwick Pines, was vacated, and the boys and staff moved into the new Camp Shawono on Howes Lake. No outdoor recreational facilities were included at the new camp because no funds were available. Remembering Christopher's life-long love of sports and the outdoors, this need of Camp Shawono will now be fulfilled.

Contributions are tax-deductible and pledges can be paid after the walk is completed on September 1st.

State Police Urge Safety Precaution Over Labor Day

State Police Director Col. George L. Halverson today urged Michigan residents and visitors to observe safety precautions in traffic and water activities over Labor Day weekend and alerted motorists as well to the need for caution in the resumption of school student and bus traffic.

He felt the state's holiday death toll this year could be kept below last year's loss of 25 lives over Labor Day if motorists and pedestrians exercise proper attention to safety rules. Deaths for this holiday have averaged 27 in Michigan in the last five years, 1970-74.

The Labor Day weekend should serve as a reminder to motorists, he added, that the schools in the state are about to re-open, bringing students and buses back into the weekday traffic flow. He called motorists' attention to the need to know and follow the state's rural school bus stop law.

The director also stressed concern for proper safety in water sports, should good weather during this last summer holiday period serve to stimulate participation in swimming, boating and fishing.

He said the State Police will operate traffic patrols from noon, Friday, August 29, thru to midnight, Monday, September 1. District commanders will focus their patrol coverage on those highway sections having previous bad accident experience.

your week ahead BY DR. A.W. DAMIS

Forecast Period: August 31 to September 6

ARIES
Mar. 21-Apr. 19

Mentally, you might be "fuzzy." Stellar patterns are not too favorable for decision making. Also, there's the possibility of being error prone. Relax and put a major project aside.

TAURUS
Apr. 20-May 20

Shape up, Taurus! You're becoming too involved with long term plans. Want to know the truth? You're, simply, looking for an excuse to put urgent tasks aside.

GEMINI
May 21-June 20

This week finds you in a set of circumstances requiring help from a "not too friendly" source. It's advisable to show your most personable traits.

MOONCHILD
June 21-July 22

You could be heading toward a week of financial mischief. Although you are not a patron of "get rich schemes," a tempting proposition, in one form or another, is possible.

LEO
July 23-Aug. 22

It would be wise to adjust your thoughts of the future...to the wants of your mate or similar alliance. Beneath a veneer of being content—trouble is brewing.

VIRGO
Aug. 23-Sept. 22

In your chart, there's no reason for you to have problems, other than those you might create. Things look favorable in most departments of your life. Again, take advantage.

LIBRA
Sept. 23-Oct. 22

There's a special name for someone who welcomes problems. The name or term, however, doesn't fit you. You'll accept a new hardship as a sort of challenge.

SCORPIO
Oct. 23-Nov. 21

For those under your sign, so inclined: There's a choice of becoming physically attracted to a member of the opposite...or displace the relationship with a platonic friendship.

SAGITTARIUS
Nov. 22-Dec. 21

Your hangup for a luxury might backfire. There's a possibility that you'll receive a gift, of sorts. Make sure there's no strings attached.

CAPRICORN
Dec. 22-Jan. 19

A secret alliance is functioning behind the scene. How do you fit into the scheme of things? Hanky panky will affect your job, task or project.

AQUARIUS
Jan. 20-Feb. 18

A long distant communication, by phone or mail, is being neglected by many members of your sign. Actually, your procrastination is blocking a series of pleasant events.

PISCES
Feb. 19-Mar. 20

You may be somewhat of a cross patch, this week. First, you'll become enthusiastic about the future...then, you'll take a nostalgic trip down memory lane.

GRAYLING, MICHIGAN — THURSDAY, AUGUST 28, 1975

About the Rattler...

Our appreciation to Mrs. Harry Souders, Crawford County Librarian, and George Seifert of Grayling for furnishing us with information on the Michigan Rattler. The photo and write-up appearing on the front page was sent to us by Mrs. Souders.

Information from Mr. Seifert will appear in next week's issue of the Avalanche.

Mr. Seifert at one time had cottages to rent on K.P. Lake, and stated at that time, occasionally they would run across various types of snakes.

Through his kindness he sent two columns, on "Outdoors" by Kendrick Kimball, and the other "If You Meet a Snake", writer unknown. They will appear next week.

He also sent along a 3 page tip sheet he compiled on snakes, which he passed out to his renters to relieve their minds to some extent, and he added, it helped our business, also.

We will hold his tip sheet, and when space permits, will also pass this to our readers.

Enough for the reptiles — we were just interrupted while putting this gem together, by a dragon-fly that came through the back door. We didn't dare to kill it — it may some day be our state insect.

Perhaps in the near future, we will be able to get on someone's back, city, county, or state wise, to satisfy those who look for that in our column — until then have a wonderful world — ours is most interesting.....

The Bible Speaks

From Calvary Baptist Church

RAPTURE OF THE CHURCH

The rapture of the Church is the next prophetic event, in which Jesus Christ will catch away all believers of the Church age into the clouds to be with Him. Since many of the believers of the Church age have died, we must also study the first resurrection as part of the Rapture question.

The first resurrection is made up of three parts. The first part begins with Jesus Christ and possibly those who arose with Him at His resurrection, Matthew 27:52,53. The second part is the main harvest and includes all believers from Pentecost to the Rapture, the believers of the Church age, 1 Thessalonians 4:16,17. The third part includes all tribulation saints who died during the great tribulation along with a number of Old Testament saints. Revelation 20:4 and Daniel 12:1,2. The second resurrection includes all unsaved dead of all ages and takes place over 1000 years after the first resurrection of the saved, Revelation 20:4-6. The second resurrection has nothing to do with the rapture and therefore will not be discussed at this time.

A detailed description of the rapture is given in 1 Thessalonians 4:13-18. The urgent need for instruction on this subject is declared in verse 13. To be ignorant of God's plan leaves us uncertain, confused and saddened. "But I would not have you to be ignorant, brethren, concerning them which are asleep, that ye sorrow not, even as others which have no hope."

The basis or ground for our hope concerning the resurrection of the dead in Christ is found in verse 14. This basis rests upon the resurrection of Jesus Christ Himself, and the location of the soul of the dead in Christ as being now present with Christ. Just as their body sleeps in the ground or grave, their soul abides with Jesus, but the physical and spiritual shall be reunited at the rapture. "For if we believe that Jesus died and rose again, even so they also which sleep in Jesus"

will God bring with him."

In verse 15 we are reminded of the authority for our hope in the rapture, the Word of God, and the impossibility of people or circumstances preventing this glorious event. "For this we say unto you by the word of the Lord, that we which are alive and remain unto the coming of the Lord shall not prevent them which are asleep."

In verse 16a we observe the actual manner of Christ's coming for His saints. "For the Lord himself shall descend from heaven with a shout, with the voice of the archangel, and with the trump of God..." As the context reveals, only the believers will hear this sound and respond, just as a radio will only respond to the signals for which it is tuned.

The results of the rapture are found in 16b through 17. The dead in Christ from Pentecost until Christ's return shall be resurrected to glorified bodies, followed by the translation of all living believers into glorified bodies. (See also 1 Corinthians 15:51-53). Both groups shall meet each other in the clouds and together be united with Jesus Christ for all eternity. "...and the dead in Christ shall rise first: Then we which are alive and remain shall be caught up together with them in the clouds, to meet the Lord in the air: and so shall we ever be with the Lord."

The purpose for giving us these truths is found in verse 18. "Wherefore comfort one another with these words." All Bible believing Christians share a common promise of receiving glorified bodies and sharing an eternal fellowship in union with our God and Savior Jesus Christ. (adv.)

Bids shall be conditioned upon the unqualified opinion of the purchaser's attorney approving the legality of the notes, to be secured at the purchaser's expense. The purchaser shall furnish notes ready for execution at his expense. Notes will be delivered at a place to be agreed upon with the purchaser. The right is reserved to reject any and all bids. Envelopes containing the bids should be plainly marked "Proposal for Notes".

"Main Stream Musing"

Boycott Uncle Ben

[By Jaymee Seidel]

Women's Lib has made us aware of all sorts of slurs we never knew enough to be insulted over. It's hard to believe, I know, but to my generation, "There is Nothing Like a Dame" sounded like a pure hymn of praise. Now, of course, we know different.

When you start getting sensitized to these sorts of words that are signs of male domination, you can find them everywhere. Why, I took a look around the house this week at the very things we buy to clean our homes and cook our meals, and I'm insulted almost beyond belief.

Just take the newest paper towel. They've named it "Brawny" and it comes with a photo of a Mark Spitz look-alike on the wrapper. What is it that made them think a towel named "dainty" or "Slip of a Girl" wouldn't have a chance? Why is it that Mrs. Bubble couldn't give dirt trouble?

Things are no better in the kitchen. Even the stove is a Magic Chef. Dotty Moore cooked and canned the stew, but Dinty got his grimy thumbprint on the can. Those beans may be named after Big John, but we know that Big John is at his elbow, telling him how much brown sugar to put in. Duncan Hines made a name for himself by tasting other cooks' cooking all his life. Most of them were probably women, but who gets the line of cake mixes named

after him?

Think about it. Would you dare buy a peanut butter named Patty Pan? They are trying to tell us that even at home, which is supposed to be Woman's Place, we just can't do the job without a male to help. It's enough to make me climb the wall, except I'd have to climb over Big Wally.

I tell you, my mind is purely boggled over this. Aunt Jemima is all we've ever had, and there's even talk of taking her away from us. I've been having consciousness-raising sessions with Mrs. Clean, "Miz" Muscle, and the Woman from Glad. We're working out a plan of compromise. Start watching your grocer's shelves for Cleaning Person in a Drum and Relatives' Rice.

PAUL BUNYAN SIZED—Mrs. Elaine McKie of Grayling is pictured with two large radishes grown in her garden this summer. The red radish is six inches long and weighed one half pound. The white radish is 11 inches long. Mrs. McKie planted the last week in May and harvested her huge vegetables near the end of July. She used leaves, manure and some lawn food on her garden.

Attend Legion Auxiliary Convention

Mr. and Mrs. Kenneth Moore of Grayling were in Minneapolis, St. Paul, August 15-21 for the 55th Annual Convention of the American Legion Auxiliary, the world's largest patriotic organization. She holds the position of Past 10th District President in the Auxiliary.

The Radisson Hotel Downtown is the site of the convention, at which more than 2,000 active Auxiliary members representing almost one million members attended.

Presiding officer of the convention was Mrs. Maurice Kubby, of El Paso, Texas, national president of the American Legion Auxiliary.

CARD OF THANKS

Many thanks to the staff and employees of Mercy Hospital, especially to the nurses and aides on the first floor, for the excellent care given to my wife, Jean, during her last hospitalization.

A special thanks to Dr. Henig, for his sincere kindness and consideration for her comfort. And also, to the many friends who sent flowers and cards.

MARRIAGE ANNOUNCED

Emma L. Smith of Grayling and Carl G. Bartell of Manvela and Florida, were united in marriage at the First Baptist Church of Frederic, on Friday, August 22nd.

Their vows were spoken before Rev. C. F. Olin, brother-in-law of the bride.

Their attendants were Mrs. Eva Olin of Grayling and Paul Hendrickson of Alpena, sister and brother of the bride.

The wedding party also including Mrs. Paul Hendrickson enjoyed a lovely dinner following the ceremony.

IN MEMORIAM

Cooper Mark William.

In loving memory of our dear son and brother who passed away 3 years ago today, August 23rd, 1972.

It broke our hearts to lose you But we did not go alone For part of us went with you The day God called you home. We cannot bring the old days back

Your hands we cannot touch, But we shall never lose the memory of the one we loved so much.

Sadly missed by Mother Viola, brother Carl and sisters, Cindy and Connie

Oil-gas, nature interest clash

Controversy rages these days, as controversy is wont to do, about oil and gas exploration in northern Michigan.

It seems that most every time the oil people want to drill a few more wells, some other forces who see a higher and better use for the land automatically will be in opposition. Thus it was also on offshore oil drilling in the old days.

Wherein rests the public weal, of course, is the crux of the situation.

In any event, the area in question in the instant case is near the Pigeon River Country State Forest somewhat northeast of Gaylord.

According to the news reports I have scanned, the controversy generally is the classic one of development-versus-nature.

Several energy-producing companies—notably Shell, Standard and Consumers Power—want to develop the oil and gas that geologists are certain lie beneath much of the forest; these companies (and a few others) leased the mineral rights to much of the land in 1968; most of the land is state-owned. Five producing wells are even now in production, but environmentalists are blocking further development.

One of the concerns expressed by the naturalists is the well-being of Michigan's elk herd; about 160 elk make their natural home in the Pigeon River Country area, and they would be endangered—so the argument goes—by further exploration for oil and gas.

Without meaning to get into the merits of the exploration-versus-nature battle, one way or the other, the status of the elk has engulfed my interest for some reason. Michigan's 160 roaming elk comprise the largest herd east of the Mississippi, according to my information.

As a pro-elk spokesman, Ford Kellum, identified as a retired state wildlife biologist, is quoted in one story I read in somewhat this fashion: "Elk need to get away from the G.D. racket just like people," Kellum is quoted. "The excessive disturbance caused by oil and gas activities

would force them into more populated areas where they could be easily poached."

And then there are those who are not quite so sympathetic to elk, and tend to downplay the danger of poached elk.

Several oil advocates say they don't really understand the fuss over what they call the phantom elk herd.

"God put the oil and gas there, but those elk were imported from the west in 1918," claims Richard Burgess, vice president of Northern Michigan Exploration Co., a unit of Consumers Power.

"If you equate the value of the hydrocarbons there against the possibility of disturbing the elk," Burgess continues, "you could fly them to Wyoming first class and bring them back after everything is out of the ground if you're that concerned about their well-being."

There are others who are less than impressed with the argument that the oil developers are violating a virgin forest. There is some truth in the comment from one unidentified pro-oil spokesman quoted in a recent article:

That country is by no means Hiawatha's retreat. You could get run over by a snowmobile in the winter or shot by a deer hunter in the fall.

And so could an elk.

Mr. Burgess and the pro-oil people have some points; but then, so do Mr. Kellum and the anti-development people. And it is the merit on both sides which makes it so difficult in a situation such as this to produce a mutual satisfaction.

For example, ponder these positions:

You can't cover up the scars of oil and gas," says one hunter. "Every new opening in the forest allows more people in and drives the animals out."

That oil won't shoot any animals, suggests a retailer in the north. "If we don't have oil and gas, how will anybody get to the forest? Folks don't hoof it much anymore."

Any suggestions, fellow Solomons?

Wolverine District Assn. O.E.S. Meeting

The 59th annual meeting of the Wolverine District Association Order of the Eastern Stars was held on Monday, June 16, 1975 at the Grayling High School.

The gym was beautifully decorated accordingly to this year's theme "Heart and Cross Session". A heart and cross was the back drop on the stage with a white trellis and white corner fencing decorated with red and white carnations and the blue bird.

The Wolverine Officers dressed in red formal formed a heart while the Past Matrons dressed in white formal formed a cross outlined with the Association Worthy Matrons and Worthy Patrons forming a hollow square around them. The Worthy Matrons dressed in blue formal formed a blue bird for Sister Irene with an appropriate song sung by Shirley Bates, Soloist.

Emma Wolf, Past President from Grayling and sister of Irene and Herb Steeves of Lewiston, opened our morning session at 10:00, followed by introduction of Wolverine Officers as follows: Irene Peterson, President, Grayling; Madge Williams, 1st Vice, Houghton Lake; Everett Glasier, 2nd Vice, Rogers City; William Zobec, 3rd Vice, Houghton Lake; Pat Failing, Secretary, Grayling; Velda Marshall, Treasurer, Grayling.

Roberta Hanna, Chaplain, Lewiston; Sue Weaver, Marshal, Atlanta; Mary Barni, Organist, Grayling; Shirley Bates, Soloist, Grayling; Skip Froh, Assist. Mar., Alpena; Jennie Annis, Assist. Organist, Grayling.

Mildred Manier, Sunshine, Grayling; Emma Wolf, Instructor, Grayling; and Pam Bolin, Grayling; Pat Carlson, Mio; Rose Davidson, Indian River and Doris Campbell, Escorting Conductress.

Fidelity #50 Roscommon presented the Bible, Rogers City #501 presented all four flags. Memorial service was given by Zion Chapter #117 West Branch with "Lords Prayer" sung by our soloist. The Candle Service was presented by Onaway Chapter #322 for our W.G.M. and W.G.P. The welcome to our Association meeting was given by our own W.M. Betty Madsen, and response was given by Clara Masult, Lewiston #516.

Sister Irene made mention that the "Heart and Cross Session" was dedicated to the memory of Sister Letha Lend P.M. and Past President from Grayling #83. She thanked everyone in making her Presidents Project a real success. In Sister

Iellias honor, Irene was able to present W.G.M. Marge Barton with a check for \$532.00 that went to Heart Fund and Cancer Research. She thanked her chapter and all others, but most of all, her family in cooperation this past year to make it one of the most memorable days of her life.

Honorary Memberships were given to our W.G.M. Marge Barton and husband Don and W.G.P. Bob Hayes and wife Cecile. Sister Irene read a beautiful poem made up for her by Syd Southwell, a member from Waldo Chapter, Bellaire in keeping with the heart fund and cancer research.

The afternoon session was opened by Junior Past President Ella Kraus and Past 2nd Vice President Harry Smith.

Greetings were sent from our W.G.M. and W.G.P. of the Grand Chapter of Michigan Order of Eastern Stars. It was very impressive with an honoring of all past and present Organists and Soloists. She also invited Sister Irene and Sister Madge to take part in a formation at Grand Chapter in Grand Rapids in October.

Sister Irene was most pleased to have so many of the "Everett Marple" Grand Family present. Her pop and Past Grand Patron Bob Marple sang a beautiful solo.

Each person who registered for the day received a hand made litter bag and a kleenex holder for their purse with emblems of heart and cross painted on them. The litter bags were filled with small gifts donated by several of our local businesses.

The Past Presidents and Officers received hand made hot pad mitts and Past 2nd Vice Presidents received knitted wooden covered hangers with heart and cross emblems on them also.

This year was the first year to have Escorting Conductress in the Wolverine District Association. I was very pleased to have my daughter, Pam, take part in this. The girls did very well for only two small practices.

We had election of officers for the new year with installation of the new officers following. Congratulations goes to Madge and Bill and your new core of officers.

We concluded the day with a solo, "End of a Perfect Day."

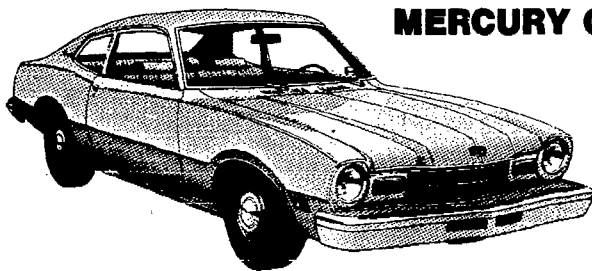

Thank you everyone who took part in any way and for the privilege of serving as your president in 1974-75.

Irene

The gays need Mrs Ford

Betty Ford has used the First Lady's clout to make the world softer for unmarried girls who need abortions.

She was also kind to us ogles when she said she didn't mind that the President enjoys looking at pretty girls. And the marijuana pushers were delighted when Mrs. Ford admitted she would have smoked a little dope if she'd had a connection when she was her daughter's age.

While the clergy are still reeling, I suggest Mrs. Ford embrace another worthy cause. She should say something nice about homosexuals.

I do not make this suggestion because I am gay. I make it out of concern for the Secret Service men who guard the President. They could do a better job if the world did not discriminate against men who prefer men.

What with all the publicity given Mrs. Ford's TV True Confessions, you might have missed an important social item coming out of Vail, Colorado. While vacationing there, the Fords unexpectedly went to a nightclub to dance to the music of the Inkspots.

This presented an unusual problem for the Secret Service. When the president went on the dance floor, his guards naturally had to follow him. But they couldn't just stand there and hum. They had to get in step with the Boss; shuffle when he shuffled and dip when he dipped.

They had to provide a moving screen between the First Couple and the other dancers. They had to be on a constant alert for dancers who folded their arms across their chests and kicked out from a squatting position while "You Always Hurt the

One You Love" was being played.

It was an assignment calling for instant choreography. According to news reports, the Secret Service men quickly began to 2-step "with hastily sought-out partners."

This means some women were commandeered to serve as innocent camouflage while the Secret Service men danced their duty. The dangers in such a procedure are painfully apparent. What if a chosen woman didn't want to dance with a stranger whose gun rubbed against her breast? What if her date was a jealous Democrat who didn't like to sit alone while his girl proved her patriotism?

There was the potential for any number of tragic hassles which might have left the Fords in a dip from which there was no surfacing.

Obviously, the nation would have been much safer if the Secret Service men had danced with each other. And it is just as obvious why they did not. People would have stared and tittered. The Secret Service would have received a black eye worse than if it had been caught sleeping with the CIA.

"Whadda we got, a bunch of queers guarding our President?"

If the Fords are to continue dancing, and the President is to be adequately guarded, Mrs. Ford's duty is clear. She should go on TV and tell Morley Safer she wouldn't be surprised if her 2 sons formed a dance team and won first prize at the Starlight Ballroom.

She should also caution the appropriate brass to always assign an even number of men to guard the President. No man joined the Secret Service to become a wallflower.

Knocks on Hollywood

One Hollywood producer was so impressed with the money made by The Ten Commandments he hired a team of writers to come up with ten more. And pretty soon a very popular starlet will be celebrating her silver wedding anniversary—she's been married 25 times.

Jack Pine's Stump

I don't have the foggiest notion of what this column will turn out to be, but I can guarantee it will vary between criticism and praise and quite a bit of trivia (Marge and Ginger, two females whom I said I would not write about again. Recent developments, however, have forced me to change my mind.) Believe me, friends, if I write about them, that's REAL trivia!

Lora Gould, The Booster Club and Professional Strength Raid Flying Insect Killer have a lot in common. All do a great job. Let's start with the Raid. This is the time of the year when flies get into your home and drive you nuts. I found a can of this Raid, and, following directions, sprayed it around in the room. Flies "fell like flies", to use an old expression. I don't know whether it's available on the retail level, but if you can get some, try it out. It works. It doesn't bother human beings, Friend Dawg or Jack Pine, but it sure clobbers the hell out of flies.

Now for the Grayling Booster Club. I've tried to be a Booster booster for as long as the organization has been alive. Sunday, through "the luck of the draw", it all paid off. I got help when I desperately needed it. No, not a gift or a donation. The Club doesn't worry about people like me, but it does concern itself with kids and others who might need support. It's the only club I belong to (and I've been in a lot of them). It's also the only club which does things on a continuing basis - and does them well. I'm proud to be a member.

Now to Lora Gould. Lora, as most people should know, was

New Service For Social Security Checks

People who live in Michigan are getting a special opportunity to have their monthly social security and supplemental security income checks deposited directly in their checking or savings accounts, according to Dale M. Averill, social security district manager in Traverse City.

"People who would like their checks mailed to a bank, savings bank, savings and loan association or similar institution or a Federal or State chartered credit union can arrange for it with a direct deposit authorization form," he said. This form, SF-1199, is available at financial organizations.

"Completion of the form does not permit withdrawals from your account by anyone other than people you authorize," Averill said.

People whose checks are already being mailed to a financial organization should also make direct deposit arrangements with the SF-1199 form. This way they will receive all notices mailed direct to their home, while the checks continue to the financial organization. The direct deposit program will help prevent loss and theft of social security and supplemental security income checks and will eliminate standing in line to cash or deposit them. This will also eliminate the need for beneficiaries to leave their homes in bad weather or hire someone to take them to a bank.

"The direct deposit program is entirely voluntary," Averill said. "People who want their social security and supplemental security income checks to continue coming to their homes shouldn't do anything. Their checks will keep on coming as in the past."

Direct deposit information is being mailed with checks that will be delivered in September to people who get monthly social security or supplemental security income checks. Anyone interested in using the direct deposit arrangement, should contact their financial institution for the SF-1199 form and further information.

What is home? A blend of memories and mortar . . . walls and roof and smells of breakfast cooking . . . a place of rest at the end of the day . . . a feeling of possession, of belonging . . . a place of hates, loves, anger . . . center of things living.

Home may be a mansion on a hill, a cramped apartment, a farmhouse, a hotel, a new suburban split-level, the house Father built . . . but only to you and your family is it home. No one else may call it that. For home is a part of you!

Centuries ago a shepherd-poet felt this. Lonely seasons on the grazing slopes had taught him to love . . . to long for . . . HOME.

But he realized that, through this life and beyond, the nearness of God is part of the sense of home. Goodness and mercy would follow him all the days of his life. And he would dwell in the house of the Lord forever!

All township boards or supervisors were asked to come in to the board meetings quarterly, to enlighten each other on township affairs.

Larry Mattis and Richard Schaeffer appeared before the Board regarding County Road Commissioners being elected instead of appointed. Several petitions, signed by residents throughout the county, were presented to the Board; it was their thought that they would have better representation if commissioners were elected.

The monthly dinner meeting of the Grayling Charter Chapter of the American Business Women's Association was held on Tuesday, August 19, 1975 at the Chief Shoppenagon Hotel.

Birthday Girls were Marilyn Longworth and Jini Hindmarsh. Sally Wert brought Edna Ledbetter from Dayton, Ohio as her guest. Other guests for the evening were Gail Hart of Bill Hart Ford and Vivian Nichols of WGRY Radio.

Our speaker for the evening was Mr. Mike Steele, Executive Secretary of the Grayling Regional Chamber of Commerce. Mike spoke on the things he has observed since coming to Grayling and what he feels are Grayling's major strengths and weaknesses. Mike encouraged more community participation, more enthusiasm and involvement by the business community, more working together to make things better for Grayling. Mike also encouraged all of us to become more active in local government and also the "write your Congressman and let him know how you feel" angle.

Our very interesting Vocational Speaker was Carla Roskoskey. Carla is the Bookkeeper for Brownwood Acres on Central Lake at Torch Lake. Carla made Brownwood sound so interesting I'm sure we are all going to make a trip over there. Brownwood is a complex of buildings including restaurant, bar, gift shop, artist's barn (including oil painting, macrame, pottery, etc.), Country Store (with all sorts of old-time goodies like jam, jelly, cheese, etc.), Greenhouse and barn. There is also a Flea Market on Sunday and entertainment in the tent and/or barn six nights a week. Obviously the bookkeeping for a place this size is a big job, but Carla says it's great.

Carla Roskoskey read communications from the National Association and a letter from our Scholarship recipient Sue Meoak. Sue's parents have moved from the Grayling area and it was voted by the Association that we would continue Sue's scholarship for one

semester and then look for a Grayling area student for the second semester.

The Association voted to send Jaclyn Ruddy to the National Convention as "Woman of the Year" and Elaine Harland as Delegate.

Phyllis Sauter, the Program Chairman, gave cost and program details for Boss's Night to be held September 9, 1975. Anyone who did not attend the meeting can call Phyllis for details. All reservations and money must be made in advance.

In the absence of Joann Hall, Scholarship Chairman, Sally Wert announced our Kirtland Scholarship winner. She is Christine LaMotte, daughter of Mr. and Mrs. Walter LaMotte of Grayling. Christine will be attending a two year, Associate Degree, course at Kirtland in Child Care. When Chris has completed the course and received her degree she is planning to open a Child Care Center in Grayling.

A Nominating Committee was elected. This will be Kathy Bloomquist, Phyllis Sauter and Mary Noa. Election of Officers will be held in September. Our fall money making project to fund our scholarships will be a Style Show. This will be held in November. More details later. Co Chairmen for this event are Kathy Parkinson and Betty Bennett.

The last three months we have had an Attendance Contest. The winning team was: Captain, Candy Klippstein, Carol Miller, Kathy Bloomquist, Marty Reichelderfer and Jini Hindmarsh.

Next meeting will be September 16, 6:30 p.m. at the Chief Shoppenagon Hotel.

Betty Bennett, Publicity Chairman

CARD OF THANKS

We would like to take this time to thank the Sheriff's Department, friends and relatives for their floral arrangements, cards and money. Also, the friends who put on the beautiful luncheon at the Town Hall. Rev. Smith and all others who helped us through our time of sorrow. Words cannot express how much we appreciate all your loving words and prayers.

Talking Turkey Feathers

You might think that the only attention being paid to turkey feathers was by the turkeys who wear them or other turkeys of the opposite sex, but that is not always true. In the last couple of years the people at Bear Archery have been paying a great deal of attention to feathers and the problems they cause the archer.

Bear uses about 78,000 lbs. of turkey feathers each year in the production of arrows and the cost of the feathers has been constantly rising, causing higher consumer prices for arrows. In addition to that, feathers are relatively fragile and become almost useless in rain or very damp weather. After a long research program, Bear has found an improved substitute in a plastic fletch aptly called Weathers(tm).

Weathers are pliable plastic vanes that are dimensionally stable and won't warp or break

down even under the worst weather conditions. They are water resistant and can even be washed when they get soiled. They have less wind resistance and always retain their original shape, giving you consistent arrow flight. During 1976 the Weathers will be installed on all but Bear's least expensive arrows.

Recommended for use with new Bear Weathers is Bear-Tite Archery Cement, a new quick drying cement for use fletching wood, aluminum or fiberglass arrow shafts. Bear-Tite works well on Weathers feathers or plastic vanes and can also be used for gluing nocks. Waterproof and long lasting, it will be packaged in a 3/4 ounce squeeze tube.

Feathers on the left and new Bear Weathers(tm) on the right, after prolonged exposure to water. Weathers(tm) will be a great aid to wet-weather bow-hunters and field archers.
